DEFINITIONS OF DEFECTS

Welding

This is where two or more strawberries are welded together, and which cannot be readily separated without causing damage to the product. The number of the berries affected shall be recorded. These strawberries shall then be separated and assessed for the remainder of the defects.

Foreign Matter:

This includes any material not derived from the strawberry plant nor defined as FEVM. Examples of foreign matter include insects, pieces of insects, wood, glass, mineral stones, metal, slugs etc.

Foreign Extraneous Vegetable Matter

This includes any vegetable material not derived from the strawberry plant, and which is non-toxic.

EVM:

This includes any extraneous vegetable material derived from the strawberry plant, other than the strawberry berry. This includes unattached calyces and part calyces, leaves and leaf pieces.

Under-ripe Berries

This includes berries which are white or green for more than 25% of their surface area, as a result of immaturity.

Major Blemishes

This includes strawberries which are blemished to the extent that the area affected is equal to, or greater than, an equivalent circle of 6mm in diameter, either as a single blemish or an aggregate of blemishes on the same berry.

Minor Blemishes

This includes strawberries which are blemished to the extent that the area affected is equal to an equivalent circle of between 2mm and 6mm in diameter, either as a single blemish or an aggregate of blemishes. Blemishes less than 2mm in diameter shall be ignored. Obviously over-ripe berries shall be included in this category.

Damaged

These are berries which have been broken, or badly squashed, causing a reduction in the diameter of the berry.

Malformed

These are berries which are seriously malformed, for example those with monkey faces (noses) caused by faulty fertilisation (see Figures 1 and 2).

Attached Calyx/Stalk

These are berries where the removal of the calyx is incomplete, and the calyx, part calyx or stalk remains attached to the berry (see Figures 3, 4 and 5).

Out of Size

Units whose diameter is less than 15mm or greater than 25mm.
